Glass and Ceramics

Issues in the conservation of a glass icon. Case study: Ana Deji, “the anguished mother of god” (tempera on glass, the 20th century)
Ioan Paul Colta » 91

The browning of stained glass windows: characterization of Mn-corrosion bodies and evaluation of cleaning methods
Simone Cagno, Gert Nuyts, Kristel de Vis, Joost Caen, Koen Janssens » 99

Ceramic of Caltagirone: from production to archaeometric characterization
Anna Maria Gueli, Emanuele Nicastro, Antonella Privitera, Giuseppe Stella, Sebastiano Olindo Troja » 109

Some considerations about the methodological approach for the archaeometric study of glass
Chiara Letizia Serra, Alberta Silvestri, Gianmario Molin » 121

Metals and Stones

Characterization and thermodynamic interpretation of ancient gold refining processes based on a dioscorides recipe
Daniela Ferro, Sergio Brutti, David R. Loepp, Angela Celauro » 131

Complementarity of the XRF and LIBS analyses in the conservation science: the case studies of the bronze alloys <i>Maria Francesca Alberghina, Rosita Barraco, Maria Brai, Tiziano Schillaci, Luigi Tranchina</i>	» 141
Artificial patina in experimental archaeology <i>Luigi Campanella, Barbara De Filippo, Daniela Ferro, Stefano Natali, Marcella Guiso, Andrea Brotzu</i>	» 151
Treatments for recovering the original chromatism of coloured stones <i>Ilaria Nicolini, Anna Maria Mecchi, Susanna Bracci</i>	» 167
Inversion tests on ultrasonic tomography data <i>Patrizia Capizzi, Pietro L. Cosentino, Salvatore Schiavone</i>	» 179
Characterization of degradation in crypts <i>Delia D'Agostino, Rosella Cataldo, Stefano Siviero</i>	» 185
A new preparation method of nanolime dispersion for the conservation of artworks <i>Giorgio Nasillo, Maria Luisa Saladino, Delia Chillura Martino, Irene Natali, Luigi Dei, Eugenio Caponetti</i>	» 197
Evaluation of Carboxylate-based Coatings for the Protection of Copper and Copper Alloys <i>Alice Elia, Mark Dowsett, Gareth Jones, Annemie Adriaens</i>	» 205
From waste to art and archaeology: polystyrene films as an innovative tool for protection of metallic artefacts <i>Francesca Giambi, Luigi Dei, Piero Baglioni</i>	» 215
Laser Ablation coupled to Mass Spectrometry (LAMS) applied to the Cultural Heritage <i>Alfio Torrisi, Lorenzo Giuffrida, Francesco Caridi, Tiziana Serafino, Eligio Daniele Castrizio, Guglielmo Mondio, Lorenzo Torrisi</i>	» 225
Contribution of Total Suspended Particulate (TSP) to the formation of black crusts on building materials in urban environment of Sicily (Italy) <i>Luciana Randazzo</i>	» 233

Selection of microbial strains for the development of a biocleaning procedure for shellac removal from Artwork surfaces <i>Nicoletta Barbabietola, Chiara Alisi, Flavia Tasso, Michela Grimaldi, Salvatore Chiavarini, Carla Ubaldi, Paola Marconi, Brunella Perito, Anna Rosa Sprocati</i>	» 243
Electrical measurements for the evaluation of water presence in stones <i>Fabiana Consalvi, Giovanni Ettore Gigante, Franco Meddi</i>	» 251
Stone restoration at Stelea Curch, Târgoviște – Romania, after biodegradation occurred due to the “modernization” of the monument <i>Veronica Burtea, Oana Chachula</i>	» 257
Spectrophotometric investigations at the museum: monitoring of colour changes during differentiated cleaning of the marble statues <i>Maria Francesca Alberghina, Salvatore Schiavone, Fernanda Prestileo, Ermanno Cacciatore, Lorella Pellegrino, Donato Perrone</i>	» 269
Conservation of copper alloys artifacts from archaeological excavation <i>Maura Mereu, Vilma Basilissi, Giuseppe Guida, Massimo Vidale, Maria Pia Casaletto, Gabriel Maria Ingo, Luciana Drago, Enrico Greco</i>	» 283
Analytical characterization of plasters and stones coming from the 19 th century Palazzo Fragapane in Grammichele <i>Fernanda Cantone, Enrico Ciliberto, Enrico Greco, Salvatore La Delfa, Gabriella Murgana</i>	» 297
<i>Pigments and Paintings</i>	
Mesoamerican mural paintings. Physico chemical characterization of materials and application of calcium hydroxide nanoparticles for consolidation <i>Lorenza Bernini</i>	» 307

Investigation the history and consequences of past restoration interventions on frescos – the case of baroque paintings of Giulio Quaglio in Ljubljana <i>Mateja Neža Sitar</i>	» 313
Green pigments: tradition and modernity in painting according to Portuguese 19 th century technical literature <i>Sónia Barros dos Santos, António João Cruz</i>	» 323
